

Video of Hamas kidnapping female IDF soldiers published by Hostages and Families Forum

A video depicting female IDF observers being kidnapped from their IDF's Nahal Oz base into the Gaza Strip on October 7 was released on Wednesday evening, the Hostages and Missing Families Forum announced.

The video, taken from Hamas terrorists' body cameras, is a little over three minutes long and has been censored.

The forum stated that the decision to release the video was made by the families of the five lookouts who are still being held captive by Hamas, namely Liri Albag, Karina Ariev, Agam Berger, Daniela Gilboa, and Naama Levy.

Seven lookouts were kidnapped alive from the base. Ori Megidish was rescued by the IDF in October, and Noa Marciano was killed by Hamas in captivity. Her body was recovered by the IDF in November and returned for burial in Israel.
